

OUR DECLARATION

THE REALM OF POSSIBILITY PROJECT

A PROJECT COMMITTED TO A HARMONIOUS AND SUSTAINABLE WORLD

Without change, many of us see humanity facing a questionable future
– environmentally, economically and socially.

This project is about change.

Our ultimate vision is to create a world that is sustainable and
life-supporting for generations to come.

Each of us has the inherent power to make this happen.

Our project helps people to recognise and harness that inherent power.

It starts with individual transformation.

When each of us sees how reality is self-constructed – through the gift of
Thought – the awakening will be global.

It is a vision whereby each of us, individually and collectively, creates and
sustains ourselves and our environment.

We can continue along the road we are on. Or we can – by *seeing*
Possibility – wake up and reset.

Possibility is not something you need to acquire: You already have it.

Possibility is part of you. It's your natural gift of wisdom.

We trust, upon deeper investigation, you'll discover exactly where it's
hidden and how to access it.

In transforming yourself, you transform your world.

THE REALM OF
Possibility
